Profile

I'm Sena Mira, a 20-year-old currently pursuing a degree in Optical and Acoustical Engineering at Gaziantep University, currently in my third year of study.

Work Experience

During University Studies

Center for Women's Studies

Graphic Designer (4 months,Remote)

During my first year of university, I had the opportunity to work remotely as a graphic designer for the Center for Women's Studies. In this role, I was actively involved in designing social media posts, greetings, congratulations, ID cards, graduation materials, and various print collateral. Managing these design tasks concurrently with my university studies was a challenging yet rewarding experience

Maseer Team

Volunteer, Media Team, Maseer Youth Team

Volunteering with the Maseer Youth Team, I played a key role in the media team. Also my contributions involved organizing intellectual and scientific activities and sessions. Additionally, Recently I was responsible for the design team, further enhancing my experience in design and team management.

Hajj Team

Graphic Designer and Data Coordinator

Working with a Hajj team was a multifaceted experience where I was responsible for entering, organizing, and auditing pilgrims' data. Additionally, I lent my graphic design skills to enhance team communications visually.

Freelance Work

Independent Graphic Designer

Outside of my formal commitments, I engaged in freelance work, specializing in visual identity, brand identity, template design, infographic, and social media posts. These projects allowed me to showcase my creativity and deliver impactful design solutions for various clients.

Educations

Graphic Design Foundations Course

2021

Completed on the Edraak platform, this course delved into the comprehensive process of researching and developing ideas, emphasizing their application within visual forms. It focused on transforming ideas into designs, addressing design problems and their practical applications. The curriculum also covered the vocabulary and terminology commonly used by designers, encouraging the development of personalized techniques and visual language.

Motion Graphics Training Course

2021

Undertaken on the Ivory platform, this training course encompassed essential design tools such as Photoshop, Illustrator, and After Effects. The course provided a practical understanding of motion graphics, incorporating hands-on experience with industry-standard software.

Adobe XD Workshop

2022

Participated in a workshop led by Dr. Mohamed Shaltout to acquire proficiency in the Adobe XD program. The workshop facilitated hands-on learning, enhancing skills in user experience and interface design

Front-End Developer Path

2023

Completed at Zero Academy, this comprehensive course covered HTML, CSS, and JavaScript, offering practical applications for each. The program included a diverse range of educational courses, tools, tips, websites, and references, proving to be invaluable for skill development in front-end development.
